MINING, BUSINESS AND STOCKS.

NSPECTOR TALKS OF IDAHO MINING CAMPS

hander Mountain Properties Working Fair Forces-Florida Capitalists Secure Bond.

Frank E. Johnesse, mineral inspector r southern Idaho for the department If the interior, returned yesterday from n extended trip examining certain nining properties in the state upon hich patents had been applied for, nd reports an unusual mining activity through central Idaho, says the loise Statesman. Mr. Johnesse's ofce is a new one, formed when the ofe of mineral inspactor was created bout 18 months ago in the field diviion, the duties being to examine into Il lands on which patents are asked or to ascertain if they are more valuble for mineral than for timber or gricultural purposes.

Mr. Johnesse's trip included visits to Thunder Mountain, Yellow Jacket, eesburg. Shoup, Salmon City and unction. The Hall Brother's property t Deadwood, under bond at present to ome Florida capitalists. Mr. Johnesse ald, had recently made one of the best urface showings of any property in entral Idaho in a long time. A vein as been tapped which has been cross-uit to a considerable, depth, penetrating about 40 feet, a vein near the foot all, which is of the lower grade, showing a nice body of milling ore. High rade portions which lie near the hanging wall have not yet been reached. "Some 50 men," said Mr. Johnesse, are at work in and about Roosevelt in Thunder mountain, developing in a mall way." This was Mr. Johnesse; irst visit to Thunder mountain since be land slide, and he said that the ake which was formed in the guich at that time is sure to be a permanent me, since the slide was almost entirely if rocks, which formed a perfect reservoir. The cabins were still floating ibout the lake, he said, giving a most inusual appearance to the scene. Mr. Johnesse's trip included visits

AT YELLOW JACKET.

At the Yellow Jacket mine Mr. Johnesse found J. B. Hastings in harge with a force of 90 men opening ip the old Yellow Jacket mine. They harge with a force of 30 men opening ip the old Yellow Jacket mine. They expect to have the mine in shape and mill in operation in six months' time. The Rabbit Foot raine on Rabbit Foot reek, about 18 miles from Yellow Jacket, is working a full force of men ind operating a 10-stamp mill. The talian mine, near Leesburg, is also operating and the Ulyses mine near Shoup with a full force of men is running a 5-stamp mill continuously. This mine has been in steady operation for several years and has been a profitable investment for the owners. Two small properties near Shoup are also working live stamp mills.

"I inspected the Old Kentuck mine near Shoup," said Mr. Johnesse, "and I believe it to be one of the best gold producers in central Idaho.

"At Junction the lead ore mine is working a small force of men. The Himore, I am told, is shipping about the careloads of lead ore a week, and I was informed that the Spring Mountain smelter was recently blown in and has the prospect of being worked to its full capacity."

PLACERS WORKING.

Mr. Johnesse states that there are several placer mines working also in Lembi county, there being unusual activity in mining in this county. Aside from the properties mentioned he found a great deal of work being done in a 'a great deal of work being done in a small way by prospectors and owners in and around Knox. Yellow Pine Basin, Profile, Big Creek, Greyhound and Sheep mountain, on base and sulfid ores which they cannot expect to operate profitably until they have transportation, but there is a feeling prevalent that a road will be built through the interior in the near future which will make it possible to market the ore.

STOCKS MOVE SLOWLY.

Consolidated Goes Up.

On a very slow market on the lo exchange conditions were somewhat reversed this morning. Sioux Consoli-dated was fairly lively with better prices while Nevada Hills was slightly off. The amount of trading this morn nsisted of 11,230 shares of stock Only nine stocks on the board regis-

tered trades this morning and as a rule the ticker showed more disconcerting news. The Atlas Cement company is reported to have cut its dividend and it is understood in Wall street that similar action will be taken by the Sioss Sheffield Steel and Iron in regard to its coming dividend. At Duluth, Minn., there is quite a demand on the ex-change for Red Warrior. The stock was offered at \$2.50 there this morning. The continuous feeling of unrest followed by the action of big concerns throwing out safe guards on all sides has caused hesitancy among the investors

speculators.

Columbus Consolidated dropped down
to 49 cents today, while Iron Blossom
was slightly stronger and showed a bettone. Nevada Hills dropped down \$2.30 and 1,000 shares of Western wada sold at 5 cents.

Sioux Consolidated was the only stock Sioux Consolidated was the only stock that showed any degree of activity to-day, selling down from 22 cents to 21 cents. During the regular and open board session 2,500 shares of stock

on the curb changed hands.

On the curb market only Opex stock was transacted in. The total sales amounted to 3,000 shares of stock, slightly weaker than on yesterday. The sales on the curb were: 1,700 shares of

MINING OFFICIALS HERE.

Nevada Consolidated Men Meet for

Trip to Ely Camp.

Nevada Consolidated Copper company at Ely, was met here last night when he arrived by three other officials of

the company. This afternoon the party

left over the Western Pacific in three

private cars, including D. C. Jackling's

The officials who came over from Ely to meet Mr. Eccles were General Manager C. B. Lakenan, C. J. Duddleston, general superintendent at the plants for the company, and Curtis H. Lindlay, general counsel for the company. Accompanying the party were General Manager C. W. Whitley of the Garfield and Murray plants of the American Smelting & Refining company, and D. C. Jackling, one of the directors of the Nevada Consolidated. Relative to the Nevada Consolidated. Mr. Eccles declared that some excellent work is now being done at the mine, mill and smelter. The mill and smelter were originally planned to treat in the

were originally planned to treat in the neighborhood of 6,000 tons of ore a day.

but the average tonnage thus far this month has been 3.065 tons a day. The quipment, he declares, is capable of anndling 10,000 tons a day, and the railroad can care for 12,000 tons a day.

PIOCHE LOOKING BETTER.

Mines Are Beginning to Open Up for

Work Again.

The mines of the Pioche district are

again taking on some degree of activity

after being closed for nearly six months

on account of the washout of the Salt

Lake Route, according to George E. Coxe, who is in the city from Pioche.

At the Consolidated Pioche he says

about 20 men are busy sinking the three

compartment shaft and things are moving rapidly ahead.

The X-Ray property is pushing its long tunnel through with considerable vigor to open up the various veins on its property.

The Menda is employing in the neigh-

The Menda is employing in the neigh-

the alchas is employing in the heigh-borbood of 30 men and the mine is in better condition that it ever was. The ore shoot is larger than it was in the early days when much rich ore was taken out for the Bristol smelter. The company is now shipping three cars of ore a week to the Salt Lake smelt-ers.

Mr. Coxe with W. O. Sutherland leaves

tonight for Los Angeles on mining bus-

can be reached.

The Ontario drain tunnel offers the cest means for operating the properies. It not only affords an excellent

most one-third less than it now costs under the various managements.

The stockholders and directors of the Ontario and Daly properties are practically the same and they control the tunnel, the water rights, the power plant and the coal mine. These various concerns are subsidiary companies which would all come in on the big combine.

The properties are all so situated that consolidation would fit them all sely together. The Daly property is the west of the Ontario and between

Ontario has never been opened up ex-cept along the tunnel where good in-dications of ore were found, although engineers have declared that geological conditions on that side are similar to

by Haggin & Hearst.

New York Tinker says: Nevada New York.—Tinker says: Nevada Consolidated company quarter ended June 30, 1910, net earnings from mine investment, \$1.280,698; dividend No. 2, \$746,649; surplus, \$534,219; depreciation for Steptoe plant, \$132,901; net credit to P. & L., \$401,318. Production of copper during the quarter amounted to 17,173,676 pounds. Utah Copper net earnings for June 30 quarter, including income from Nevada Consolidated, were at rate of over \$6,000,000 per annum, or \$4 per share on outstanding stock. Total net was \$1.548,979. Surplus after dividends. was \$1,548,979. Surplus after dividends, \$399,463.

FORMING MINING COMPANY.

Articles of incorporation for the Deep Creek Copper Blossom Mining com-pany were filed with the county clerk this morning. The principal place of business of the concern is Salt Lake City. It is capitalized at \$10,000, di-vided into 750,000 shares. A. L. Thom-as, with 10,000 shares is president of the company. H. Schurert, 1000 shares Columbus, 100 at 48.

CHEAP MINING AT OHIO.

Actual Work Is Third Less Than Es-

city from an inspection of the Ohio properties in Utah. He says the company is progressing at a most satisfactory rate and that the mill is treating about 1,300 tons a day which runs about 1½ per cent copper and 30 per cent concentrates. Mr. Frank says that there is quite a difference in handthat there is quite a difference in handling the ore as compared with Butte.
The tonnage handled is large and the
mining is done by the caving system
with the best results. He says the
cost of mining was estimated at 70
cents per ton, but it is now being done
under 50 cents per ton, the cost in
May being 51 cents per ton for mining.
Mr. Frank says the concentrating
costs from 38 to 40 cents, including
all the charges of management and

all the charges of management and office expenses.

The ore is sent to the mine through the Mascotte tunnel owned by the the Mascotte tunnel, owned by the Bingham Central Railway company which is controlled by Mr. Heinze. The Ohio mill is only about half equipped, but the building is completed. If Mr. Heinze's European mised. If Mr. Heinze's European mis-sion is successful and he receives the offer of the money which he expects, the mill will be fully equipped in the

near future.

The Ohio has a floating debt of \$600,000 and it has outstanding \$1,-246,000 bonds, convertible into stock at par, which is \$10. There are \$754,-000 bonds in the treasury and the sale of these bonds is now under consideration. The Ohio has an auconsideration. The Onio has an authorized capital stock of 1,500,000 shares. Mr. Frank says that it has been figured that there are 12,000,000 tons of ore above the Mascotte tunnel in the portion of the tunnel property which has been developed.

GIANT CONSOLIDATION FOR PARK CITY CAMP

Proposition to be Put Up to Ontario, Daly West and Daly Stockholders Within Short Time.

A big consolidation scheme will be put up to the stockholders of the Ontario, Daly and Daly-West within a short time according to plans that are now being made by the large share holders of each company. The proposnonders of each company. The proposed plans involve all the companies named as well as the subsidiary concerns, and will mean the combining of seme of the largest and richest territories in the Park City camp.

territories in the Park City camp. Such a consolidation would mean a big revival of interest in the Uintah mining district in Summit county and would cause the opening up of an immense virgin territory.

Just what terms will be made to the companies has not been settled. As soon as a quorum of the directors can be obtained the plans will be gone into thoroughly. Until then it will not be known what agreement will not be known what agreement

means of transportation, drainage and acquiring of depth, but would allow the working of the properties at al-most one-third less than it now costs

panies which wo

to the west of the Ontario and between the Daly-West and Ontario. The merger would make one of the largest properties in the district. All have excellent records as dividend payers and their combined production in the past has probably equalled that of all the other properties in the camp put together. The companies are along the famous Ontario-Daly fissure which has been the great producer of the camp. The extension of the chain tunnel into the Daly-Judge ground will open up much virgin territory in that company's ground. The eastern end of the Ontario has never been opened up ex-

conditions on that side are similar to the western end of the property from which \$40,00,000 have been taken. In the Daly there is also a large terri-tory that is unexplored. The Ontario is one of the oldest mines in the camp and holds the great-est dividend record. It was worked with immense profit in the early days by Haggin & Hearst

MAKE QUARTERLY REPORTS.

James A. Pollock & Co., bankers and brokers, furnish the following, received over their private wire yesterday after-

as, with 10,000 shares is president of the company: H. Schmertz, 1,000 shares, vice president; L. H. Thomas, 437,000 shares, secretary and treasurer; J. Greenewald, 1,000 shares, and John Bond, 1,000 shares, additional directors. The company places 300,000 shares in the treasury. The company takes over Autocrat, Autocrat Nos. 2, 3, 4, 5, 8 and 7, Tillicom, Lamish, Haidee Nos. 2 and 3, Potlatch and Potlatch No. 2, Tyhe and Tyhe No. 2, Alki and Alki No. 2, lode mining claims in the Clifton mining district, Tooele county.

CONCENTRATES.

San Levy, president and general man-ager of the Ely Consolidated has gone to Ely.

L. E. Bamberger is in the city from California, where he has interests in the oil fields.

W. E. Hubbard is at Bingham today in connection with the Montana-Bing-ham Consolidated Mining company.

E. P. Mathewson, general manager of the Anaconda and Pine canyon smelt-ers, left for his home at Anaconda yesterday.

C. H. Repeth, engineer in charge and A. G. McGreger, the electrical engineer A. G. McGreger, the electrical engineer for the International smelter are both at the plant today.

J. W. Carlton, formerly in charge of the work at the Consolidated Ploche property, is in from Pioche today. He is staying at the Moxum hotel. Work on the Cupric property in Bea.

ver county has been closed down. Man-ager Morris believes it will be but a short time before work will be resumed. O. E. Parsons, acting president of the Bingham-Midway company has just closed a contract for boilers and

drills for use at the two tunnels being driven at the property. Imer Pett, general manager of the

Bingham Mines company is at Eureka today looking over the progress at the Eagle & Blue Bell property, which is a subsidiary company. General Manager Tony Jacobson and family are at the Columbus Consolidated mine. Mr. Jacobson is directing the

work of opening up the new fissure and the cave recently struck. H. G. Snyder leaves today for Humboldt county, Nev., where he goes to begin work on the Indian Ike prop-erty taken over by a number of Salt Lakers under the name of the Comet

Gold Mining company. By the use of various parts secured from the Beck Tunnel plant the Yan-kee Consolidated will be able to start up Monday with its new hoist. The plant will be so operated until the various parts needed arrive from the

manager of the Ohana Mining company in the Black Horse district, Nevada, leaves for Boston today to confer with associates in regard to the future worl on this gold property. Some high grade ore has been opened up.

J. B. Whithill, who has been the local purchasing agent of the Inter-national Smelting and Refining company and the Giroux Consolidated Mines company, has been appointed ore pur-chasing agent for the new smelter in Pine canyon. Gen. Manager Mathew-son announced the appointment.

According to John Thomson, super-itendent of the Utah Mining, Milling and Transportation company, operating the Hub and Lady Bryan groups of claims in Beaver cour ments have been completed for the reg-ular shipments of two cars a week of ore from these properties. Mr. Thom-son declares that on the 200 foot lev-el of the Lady Bryan a drift has crosscut 40 feet of ore and that the ore body has been drifted on for 45 feet with no end in sight.

BUSINESS AND REALTY

quired a two-thirds interest in the Murray plant of the Western Fireclay company, and it is understood that the two concerns will merge. The Utah company has a plant at 1098 south First West street, and the Western has a plant at Third West and Eighth South plant at Third West and English South streets, which it is proposed to give up, concentrating all efforts at the rebuilt Murray plant, which is to cost \$150,000 and be equipped with the latest and best machinery for making all fire clay products.

NEW INCORPORATIONS.

The Fireproof Storage & Trust company filed articles of incorporation with the county clerk Thursday. The company is capitalized at \$100,000, and the officers are B. F. Redman, president; J. F. Bennett, vice president; R. T. Badger, treasurer; F. J. Gustin, secretary, and W. R. Wallace, additional director.

James J. Burke & Co. filed articles f incorporation with the county clerk hursday, taking over the private con-racting and engineering business of tracting and engineering business of James J. Burke. The capital is \$50,000 in shares of \$100 each. James J. Burke is president; T. A. Beyer, vice president; Fred E. Arnold, secretary and treasurer. These are also the directors.

STOPPED ADVANCE

New York, July 29.-The stock market opened today with another buoyant advance in all directions. Stocks immediately affected by the settlement with the Pearson syndicate which became known yesterday, led the advance. came known yesterday, led the advance. Missouri Pacific jumped 2½, Rock Island and Wabash preferred 1½, Denver & Rio Grande 1½, Wabash and Southern Pacific 1½, American Car 1½, and Union Pacific, St. Paul, Amalgamated Copper, American Hide & Leatner preferred, Ontario & Western and Pittsburg, Chicago, Cincinnati & St. Louis, I. There were besides many substantial fractional gains. Canadian Pacific and Great Northern preferred moved contrary to the general trend, the former losing 1½ and the latter %. International Harvester also declined %.

There was pressure to realize profits which hampered the advance during the first hour. The market showed good absorptive power, but the tone good absorptive power, but the tone developed hesitation. American Agricultural Chemical rose 2, Kansas City Southern, Denver & Rio Grande preferred 2, Pressed Steel Car 1, Atlantic Coast line and Tennessee Copper 1½ and many others a point.

The disposition to take profits on advances held the market in restraint. The selling was not pushed on reactions and the trading became quieter than for several days. Belief that the settlement of the Pearson syndicate's differ-

several days. Belief that the settlement of the Pearson syndicate's differences had cleared the air, remained the domainant influence. The easier tone of the corn and cotton markets were favoring factors. Mackay companies rose 2%. Toledo, St. Louis & Western declined 1%. The tone was easier at Bonds were firm.

Bonds were firm.

A broak of 8 in Closs-Sheffield Steel unsettled the market and prices began to yield. American Locomotive was carried down 24, Laclede Gas 1½, Reading 1½ and St. Paul, St. Louis-Southwestern preferred, Northern Pacific, Interborough-Metropolitan preferred, United States Steel preferred, Consolidated Gas, American Smelting and Colorado Fuel 1. Earlier gains were mostly wiped out.

Weakness in special stocks suggested further weeding out of disliked collateral in loans. The general list weakened in

in loans. The general list weakened in sympathy. Laclede Gas broke 31/4, American Sugar and St. Louis-Southwestern preferred 2, Consolidated Gas 1%, Reading 1%, Amalgamated Copper 1¼ and Norfolk and Western, National Lead and General Electric 1. Ameri-can Steel Foundries advanced 1%. Sloss-Sheffield Steel railied 31/2.

The market closed irregular and dull. tocks met a point of resistance when Rock Island preferred, American Woolen and United States Rubber first pre ferred had made one point declines and Illinois Central 1%. The recoveries were moderate and came to a halt in face of the dull demand.

PRODUCE.

CHICAGO.

Chicago, July 29.—Bullish foreign news helped give an upward twist to prices of wheat today. Light shipments from Argentina and Australia and unfavorable crop reports from Hungary were among the factors. Pit traders were short over night, and seemed inclined to cover promptly. This desire was heightened by the fact that the nearby options on which there are large concentrations of holdings showed the greatest strength. Offerings were light except at an advance. Then selling by longs became more liberal. Talk of probable larger world's shipments this week was of some aid to bears in bringing about a reaction. The market opened at an advance of % to %. September started % to % up at 1.04 to 1.01%. On the ensuing decline the price went back to 1.03% q%.

Cool weather led to general unloading of corn by longs. Country offerings of cash grain were notably increased. The market opened unchanged to % down with September at 62% to 63%, a loss of % to %. A rally to 63% was succeeded by a drop to 25%.

Although there was a decided diminution in hedging sales of oats, the market for that grain was easier in sympathy with corn. September opened % to % off at 37% to % and declined to 36%. One of the large packing companies were 5 to 17% cents lower, with the September option at 21.70 for pork, 11.62% to 11.65 for lard, and 11.40 to 11.42% for ribs. Additional declines followed.

Wheat—Large receipts northwest and good reports from the Minnesota harvest fields cut considerable figure. Indications that the July shorts would get no important relief caused a temporary rally. The close was weak, with September at 1.02% to %, a net decline of % to 1c.

Corn—There was heavy selling by the country although for a while railroad

ber at 1.024 to %, a net decline of % to lc.

Corn—There was heavy selling by the country although for a while railroad reports as to crop damage in Oklahoma and Kansas occasioned a recovery. The call was weak at 62½ for September, a net loss of 1 to 1½.

WESTERN MARKET LETTER.

bonds firm.

(Special Correspondence.) Kansas City Stock Yards, July 25 .- Cat-

tle receipts of 52,000 head last week, in cluding 8,000 calves, were the largest of the season, and sufficient to enable ouyers to enforce a decline of 10 to 26 cents. Corn fed natives and heavy Kan sas grass steers lost least, and light weight grass steers the most, including the lighter quarantine steers. Trade in stockers and feeders picked up quite bit, more than 200 carloads going to the country, and steers suitable for this trade sold almost steady all week. The run of 20,000 head here today is heavier than was expected, and contains some cattle driven in by dry weather, entailing lack of stock water and poor pasture. These drouth cattle are not numerous today, but fears of trouble from this source are feit in a good many sections, especially in the Osage country in Oklahoma, where shippers are getting ready to run a lot of cattle this week if it does not rain. The northwest continues to report dry weather trouble, and a good share of the 25,000 cattle in Chicago today are from that territory. Killers were able to load up pretty heavy last week, and the tendency today is naturally downward. Conditions the next week or two will be governed by the amount of rainfall over the country, and a spell of unbroken dry weather might force in a lot of cattle, and hurt the market a good deal. Prices are off 10 to 15 cents today, more in some cases, and buyers appear to be willing to wait awhile to get the decline wherever sellers are rejuctant to concede it. Best corn fed steers are worth 8.00, top pasture steers 7.15, medium and light steers down to 5.00, grass cows around 4.00, veals off 26 to 50 cents today, best at 8.25, stock steers 2.00 to 5.00, feeders 4.00 to 5.50.

Hogs made a gain of 5 to 10 cents last week on the moderate Fun of 35,000 head, even taking into consideration a loss of 10 to 16 cents the first days of the week. Although fairly good gains were made the last part of the week, it did not abate the bearish sentiment going around, as the couptry has a crop of them week although fairly good gains were made the last part of the week, it did not abate the bearish sentiment going around, as the couptry has a crop of them right along. On the other hand, Armour is a buil in provisions, but without any substantial following. He believes hog receipts will fall off. Run here today is 5.00 hogs, market 5 to 10c, lower, light hogs at 8.00 to 8.824, medium weights 8.50 to 8.75, heavy hogs 8.35 the country, and steers suitable for this trade sold almost steamy all week. The

weights 8.50 to 8.70, heavy negs 8.30 to 8.50.

Sheep—Receipts of only 18,000 head last week proved a curative agent to the failing sheep market, and prices closed the week with gains all along the line, lot 0.25 cents on sheep, and 25 to 50 cents on lambs. Run is 6,000 today, market weak, on sheep 10 to 12c. higher on lambs, top lambs 7.65, and ewes and wethers selling at 3.75 to 4.25, stock and feeding and breeding grades 2.50 to 4.00. Record receipts of range stuff is coming to the northern markets, most of it on the feeder order, and a good country demand is preventing much hurt to the market up to this time. No range offerings have appeared here as yet, of any consequence.

PLANNING TO BRING ABOUT LOWER MEAT PRICES

Chicago. July 28.—Lower prices of meats will be brought about if the plans of the United Butchers of America are put into successful operation.

The retailers declare that the packer is to blame for the high prices of meat and now plan to prove it by eliminating that individual.

John H. Schoffield, secretary of the butchers' national organization, says an attempt will be made at the convention here, Aug. 15 to 19, to organize and establish independent co-operative abattoirs, rendering plants and tanneries, and he expects arrangements to be made for trying the experiment in Chicago.

"The question has been under consideration for some time and we now feel certain that the project will go through," he said. "This move will enable the retail butcher to operate inenable the retail butcher to operate in-dependently. We propose to kill all our cattle and to market the byprod-ucts. With the great profit that would accrue from the byproducts we would be able to retail meat to the consumer at least 50 per cent cheaper than the prices now asked, and still make a healthy profit.
